NEW YORK, Sept. 10.—General Venustiano Carranza's reply to the appeal of the United States and the Latin American countries for a conference of the warring factions of Mexico, was received today. Carranza's answer is a polite, but unequivocal refusal.

In a note issued by Mexican Minister of Foreign Affairs, Carranza has told the diplomats that he can not permit interference in Mexico by foreign governments. He explains that he is in control of all Mexico except the state of Chihuahua and Sonora and a part of the state of Coahuila. The states of Chihuahua and Sonora are invited to come themselves, or to send representatives to some point along the Rio Grande for a conference at which the affairs of Mexico would be settled.

Has Army of 150,000. The diplomats are told that Carranza has a force of 150,000 men, that the functions of public service have been restored, the railways repaired and railway traffic resumed. The note adds that in the Delta and the cities there have been restored the activities of normal life.

Stefie Draws to Close. "The strife now draws to a close," Carranza says. "The revolutionary forces, broken to pieces, seek refuge in the northern frontier, retaining in its possession only the state of Chihuahua, a small part of the state of Sonora and the state of Coahuila, which will in a short time be occupied by constitutional forces."

People Long for Liberty. "Moreover, your excellencies should not forget that the longing for liberty and democracy of this people is an inviolable and sacred right. NEW YORK, Sept. 10.—The Anglo-French commission, seeking a way to meet the huge bills of Great Britain and France for the purchase of munitions and other supplies, reached New York today and was welcomed by J. P. Morgan and met approximately 100 bankers, insurance company heads and leaders in other lines of finance, for this afternoon at a reception in Mr. Morgan's library.

Purpose of Mission. For publication, the commission confirmed its commitment to a statement issued here at its arrival here on the steamer Landmark. This statement detailed the personnel of the body and recited its purpose. It was assumed to be significant that in this statement reference was made to the commission as the Anglo-French commission.

Italian Money Depreciated. Italian money is depreciated in this market to a degree equalled by no other. At present the lire is worth approximately only three-quarters of its face value. Largely because of this, Italian exporters no longer, in many cases, accept their own money in payment for goods shipped here, but insist upon being paid in dollars or sterling.

Italy Cannot Order. In the case of Italy the depreciation of money values here has resulted in a situation which is extremely serious. Italy cannot order goods from the United States for the purpose of the war effort.
